

School of Computer Science
University of Birmingham
July 2–3, 2009

Bridging the Gap Workshop Series

the programming challenge of heterogeneous architectures

Speakers

Byron Cook Microsoft Research automated verification
George Constantinides Imperial reconfigurable hardware
J. G. de F. Coutinho Imperial reconfigurable hardware
Dan Ghica Birmingham programming languages
Mike Giles Oxford HPC
Stephen Jarvis Warwick HPC
Tim Lanfear Nvidia HPC
Alan Mycroft Cambridge static analysis
Peter O'Hearn Queen Mary programming languages
Thorsten Schnier Birmingham optimisation
Satnam Singh Microsoft Research reconfigurable hardware
Wim Vanderbauwhede Glasgow network-on-chip
Ian Watson Manchester parallel computation
Hongseok Yang Queen Mary programming languages

Chairs

Alan Mycroft Cambridge
Satnam Singh Microsoft Research

Organiser

Dan Ghica Birmingham
